

Instructions:

1. Print this page and write your telephone number on the collar.
2. Cut along the dotted line to separate the collars.
3. Place the collar around the cats neck, fixing each end of the collar with sticky tape. Ensure there is at least a 2cm gap with no sticky tape so the cat can break free from the collar if they become trapped.
4. If the cat returns without a collar then attach a new one, do this for at least three days.

Do not use these collars if the cat appears unfriendly, feral or violent. Never put yourself in danger.

WE URGE YOU TO TAKE ALL REASONABLE PRECAUTIONS WHEN APPROACHING THE CAT.
